

NORTH COUNTRY CAMPS
INFORMATION FOR CAMP FAMILIES

Welcome to North Country Camps! We're excited for the upcoming summer and so happy that your sons and daughters will be with us on the shores of Augur Lake. This parent handbook contains a tremendous amount of information about NCC for parents. It contains valuable advice about packing for camp, getting paperwork ready and it also contains answers to many of our most frequently asked questions. It's a fantastic reference during the summer, when you're wondering what time to call camp, or how visiting day works. We hope that you'll set aside a few minutes now to read the whole thing. If you have any questions, please don't hesitate to ask. Thanks!

CHECK LIST

All forms are found in your CampInTouch account under “Forms & Documents”
<https://northcountry.campintouch.com/v2/login/login.aspx?>

_____ Physical examination by family physician (**April or May**)
 _____ **Signature required.** Download, complete by
 physician, scan and upload or send by mail.

_____ *Payment & Transportation Form* completed
by May 1st or before

_____ *Camper's Cabinmate Request Form* completed
by May 1st or before

_____ *Health History Form, Physician's Examination Form, and
 copy of health insurance card* completed, signed,
 dated and returned by **June 1st or before**
 (see page 4 for instructions)
 _____ **Signature required**

_____ *NYS Meningococcal Meningitis Vaccination form* signed
 and dated by **June 1st or before**

_____ *Activity Permission and Wilderness Swimming Permission
 Form* signed and dated **by June 1st**

_____ Balance of camp fee due **by June 1st or before**

_____ Send camper medications (except those requiring
 refrigeration) **to arrive by June 29th**
 (see page 4 for instructions)

DATES OF OPENING AND CLOSING

The camp season will open on Sunday, June 30, and close on Tuesday, August 20. An open-ended shorter session will end Saturday, August 3, or later if family plans permit. A second shorter session begins Saturday, July 13 and ends Tuesday, August 20. For those first-time campers attending for three weeks with the option to stay, the pick-up day will be Saturday, July 20. A second three-week option runs from July 21 to August 10. *In mid-July we will contact all families who have chosen the shorter-session-with-option-to-stay, to determine whether or not their campers are inclined to remain for longer, which all short-season campers are welcome to do.*

PRE-CAMP SESSION FOR WORKGROUP

Workgroupers who wish to come to camp a few days early are welcome to arrive on Thursday, June 27. The fee for this session will be \$300. *Travel arrangements must be made independently.* For those traveling from the New York City area we suggest Amtrak to the **railroad flag stop at Port Kent, NY**. A counselor will meet the group in NYC to travel with them on the train to camp. Baggage brought on the train is limited to two moderately sized bags (14 x 22 x 28, weight 50 lbs). You may want to consider shipping duffels to camp. **Please be sure to notify us if your child will be coming for pre-camp.**

TRIP TO CAMP BY CHARTERED BUS

A bus party from the New York area, led by the directors, will leave from the Horace Mann School in Riverdale, NY, at 9:00 A.M. on Sunday, June 30. The trip to camp will take about five and a half hours. Those wishing to travel from the Rockland County area may meet us at New York State Thruway Exit 14. Those wishing to travel from the Albany area may meet us near New York State Thruway Exit 24. **Directions to Horace Mann, the Exit 14 or Exit 24 meeting places will be mailed to you upon receipt of the enclosed Payment form and your check.** Each camper should bring a lunch and beverage for the bus trip. The buses are equipped with lavatories and air conditioning.

Families with campers attending the second three or five week sessions must provide their own transportation for travel to camp. You should plan to arrive by 3 PM to allow time for orientation and a swim before the evening meal.

Buses will return at the end of the camp season on Tuesday, August 20, via the same route. **Families whose campers are leaving at the end of five weeks should plan to pick up their children on our parent visiting day, Saturday, August 3, or should make alternative travel arrangements.** This is also true for families whose campers may be leaving earlier.

BAGGAGE

Clothing and equipment may be packed in two small or moderate size duffel bags if you plan to send baggage on the camp bus. We can't carry trunks on the buses. Adequate storage space will be provided for each camper's personal belongings. **BE CERTAIN THAT EACH PIECE OF BAGGAGE BEARS THE CAMPER'S NAME.** Any additional articles brought on the bus must be compact enough to fit in the luggage rack over the seat. UPS (United Parcel Service) and Federal Express are other alternatives. Phone your nearest UPS depot or FedEx office for details of pick up and delivery, as well as for size and weight limitations. If more convenient, you may wish to send a trunk by one method and a duffel by another. **Baggage should be shipped no later than June 20th.**

Ship baggage to **CAMP WHIPPOORWILL**
517 Frontage Road
Keeseville NY 12944

Ship baggage to **CAMP LINCOLN**
395 Frontage Road
Keeseville NY 12944

HEALTH HISTORY

The more complete and accurate your child's completed health history is, the better able we are to provide care. Please inform us of the past and current physical and emotional health of your child. We strive to support each child in the most nurturing way possible at every developmental stage, allowing all children to continue to grow in to who they will be, while helping them to develop friendships and to learn skills that will last a lifetime. Confidential information will only be shared with those who need the information to keep your child safe.

We may now or in the future be serving transgender children, and it is our camp policy to treat children as the gender they identify with.

ACCIDENT AND SICKNESS INSURANCE

Visits to the doctor and prescriptions for the treatment of minor accident and illness, as well as more serious situations that may require follow-up treatment or hospitalization, will be billed to family health insurance policies. **Please be sure that your family health insurance policy covers your child while at camp – this is especially important with HMO's. Parents are responsible for paying medical bills resulting from doctor's visits.** Please provide us with necessary information on your policy regarding x-rays, tests, or prescriptions.

PARENT NOTIFICATION

Our policy for notifying parents in the event of illness or accident is as follows: you will be contacted by telephone or email if your child must be seen by a physician, or if he or she is required to stay overnight at the health center. Visits to the health center for minor complaints will not routinely be reported to you unless in the nurse's judgment an email or call seems advisable.

HEALTH and MEDICATION FORMS

Please refer to the health forms found online, in [your CampInTouch account](#). ***It is mandatory that we receive completed Health Forms before your child arrives at camp.***

All health forms must be filled out completely. Forms must be completed both by you and your child's doctor, indicating results of a health examination within the last twelve months (please have the doctor fill out **our** form). The immunization history must be up-to-date and complete. You must send a copy of your insurance card.

Please complete and upload or mail the completed forms to the camp address, to reach us before June 1st. Our nurses must be able to review these forms prior to your camper's arrival at camp. Up-to-date and accurate information is essential for the protection of your child in case of accident or sickness.

You will be notified promptly in an emergency, but **PLEASE BE SURE TO SIGN and DATE the Parent/Guardian Authorizations** so that routine care can be provided, prescribed medications can be administered, and emergency care will not be delayed if we can't locate you immediately. ***Unsigned forms will be returned for your signature.***

IMMUNIZATION

Make certain that your child has received all immunization injections prior to coming to camp. Those children who are to receive allergy shots or other injections during the summer must be provided with written instructions, signed by your doctor, designating who is to administer the shots (either the camp nurse or local physician) and specifying treatment in the case of a reaction to the injection.

Please read the meningococcal disease information before signing the vaccination form. **NYS requires that the vaccination information be completed annually for each camper. Please consult with your child's pediatrician as to whether your child should receive this vaccination.**

(continued on page 5)

MEDICATIONS

All medications, except those needing refrigeration, **must be sent to camp to arrive by June 28th.**

Those medications needing refrigeration may be given to a Director when your child boards the bus, or given to the camp nurse if arriving by car.

Any medication sent or brought to camp *must*:

1. be properly labeled as to contents and in the original container.
2. be labeled with the camper's name.
3. be accompanied by specific written instructions as to use and dosage (*this includes vitamins*).
4. be in the care of the nurse for administering – this includes all over-the-counter medicine as well as prescription medicine.

Campers are not permitted to administer or retain prescription or over-the-counter medications except under the supervision of the camp nurse.

FURTHER HEALTH INSTRUCTIONS

A child who has been exposed to a communicable disease **must not** be sent to camp until the danger to others is past.

HEAD LICE and BEDBUGS

Our goal is to have a lice-free summer. We need your help to make that possible. Please take precautionary measures to see that your camper is free of both lice and nits (eggs) prior to arrival at camp. Everything you do prior to camp gives us the best shot at having a lice-free summer, however as many of you know from experience, it only takes one nit that gets missed to cause an outbreak. We are vigilant about checking campers upon arrival, and weekly throughout the summer to catch any missed nits or lice once camp begins.

Please be sure to check your child for **head lice** in time to treat the condition before departure for camp.

IMPORTANT: If nits or lice are found, your child will be isolated until a full treatment can be done. We will hire professionals to comb so that our nurses are able to do their work, at a potential cost of \$50 per hour to you. This could total upwards of \$500 depending on the length of time needed to comb. Our policy is to comb daily until all evidence of nits are gone, which can mean a great deal of time for your child to be out of activities.

For both lice and bedbugs, all items brought to camp will be laundered, sprayed, or quarantined in order to prevent the spread. All charges (which can be significant) for treatment and laundry of any child arriving with lice will be applied to the camper's store account.

Please let us know if your child has been treated for head lice during the months prior to camp, or if your home or family have been exposed to bedbugs. This is an important piece of information that will help us prevent the recurrence or spread of both at camp.

GRATUITIES

6

Together with fellow members of the American Camp Association we are opposed to the practice of tipping at camp. We ask families not to offer tips to members of the staff, and our staff not to accept any that may be offered.

STATEMENT OF DRUG AND TOBACCO POLICY

Possession or use of any illegal drug, such as marijuana, or alcohol, tobacco or “vaping” devices of any type, will not be permitted, nor may campers use prescription drugs or over-the-counter medications without the supervision of the nurse. The parents of a child found to possess or to use any such substance will be notified immediately by the director who, in consultation with the camper and his or her parents, will decide upon appropriate action.

Counselors are expected to help carry out this policy. It is essential that all campers understand and agree to subscribe to this policy **before** coming to camp.

Behavior

Part of what children learn at camp is how to live with others in close quarters and in a small community. This involves a willingness to solve problems and respect for the experience of the other campers. For this reason, we have an expectation of behavior that is respectful and does not negatively impact the experience of others. The staff is trained to help the campers find good ways to deal with challenges and express frustration productively. The directors will communicate with families when behavior is particularly difficult, so that together we can help a child navigate life at camp. However, in rare instances, where a camper is unable or unwilling to control their behavior, when the camp experience of other children is being significantly impacted, and after an effort on the part of both parents and the camp to help the situation, the decision could be made for that child to leave camp. This is a last resort, but also a possibility that should be considered when making summer plans. The more information that families can share with us about every child’s emotional life and patterns of response, the better able we will be to make sure our staff is ready and able to help all of our campers to navigate life at camp, ensuring a fun summer, filled with confidence building activities.

ELECTRONIC DEVICES (Cell phone, MP3, iPod, Kindle, e-Reader, etc.)

Computers, cell phones, pagers, email devices, walkie-talkies, hand-held computer games, and all brands of e-readers are not permitted. *iPods capable of containing video content will not be permitted.*

We shall restrict the use of music devices exclusively to the camper's cabin.

To clarify: iPod shuffles and nanos without video content will be allowed. The iPod classic and touch will not be permitted.

It is important that parents as well as campers understand our policy regarding such items as iPods, cell phones, e-readers or other electronic devices. What is there about a summer camp experience that conflicts with the present day absorption with and proliferation of electronic communication and social networking? The answer to that question, we believe, is that by choosing summers at camp you are offering your children a distinct change from their lives at home and school during the rest of the year, a change whose focus is on living vigorously in the outdoors, on the joy of physical exertion in a broad range of activity, on the opportunity to try new

adventures and risk mistakes, and, above all, to connect with other children and young adults face to face without interruption or distraction for a few weeks out of the year.

Camp will **not** be responsible for repairing or replacing broken or missing music devices or digital cameras. *It is essential that any such item bear permanent identification as a protection against loss or confusion about ownership.*

Consistent with our goals of creating a healthy community at camp, we want you to be aware that we intend to monitor the use of these devices and to counsel campers in the case of any activity deemed inappropriate or likely to injure the feelings of others. We maintain the right to review digital content of music devices and cameras and to restrict usage if we deem it necessary.

You may want to consider disposable cameras for camp use.

PACKAGES: CANDY, FOOD AND OTHERWISE

Please do not send packages to camp ~ it sets up an unhappy competition for "things" received which are not necessary to life at camp. We are asking for everyone's help in reducing trash, cabin clutter, and competition. **If you send a package, please email the Directors** to notify them of items being sent.

We shall **restrict packages** to the following:

1. Camp necessities, such as those listed on the Camper Equipment List, that were inadvertently not packed or need to be replaced. Examples: eye glasses, tennis racket, poncho.
2. Birthday Presents for those campers whose birthdays occur during the camp season (in moderation). **Please, no cakes or foods.**
3. Printed Materials (in moderation *please!*), such as magazines, newspaper clippings, puzzle books, reading books, cards. Whatever you send must fit in an envelope no larger than 10 x 13.

Any packages, that do not conform to the above three categories will not be delivered to the camper. We do not plan to make exceptions. We hope that it is clear to you why we have reached this decision and that you will support our efforts by respecting it.

We expect that parents and relatives will **not** provide their children with candy and foodstuffs, and will not send edibles to camp. This practice can lead to problems of storage, unpleasantness over sharing, and antagonism between the "haves" and "have-nots." We shall collect any such items and shall be firm about this. Meals are planned to include fresh fruit and sweet desserts daily, and candy is available at the camp store once or twice a week.

We recognize that campers love to receive mail, and we wish to encourage you to keep those cards and letters coming. **However, we have created a camp package policy and ask that you observe it.**

Expensive Items and Collectibles

The camp environment can be rough on delicate and valuable possessions. Many campers choose to bring collectible card games, like "Magic" to play and to trade with their friends. We suggest that if your child is bringing cards to camp, that they not bring any particularly valuable ones, as they are easily lost or damaged." Because each card is so similar, to avoid confusion and conflict, we also suggest marking them to show ownership.

CAMP TELEPHONE and MAIL POLICY

We urge you to communicate with your child regularly by letter, and suggest that you pack pre-addressed and stamped envelopes and postcards to encourage letters home. Campers are required to write home every Sunday, and many do write more often.

We prefer that the telephone be used only rarely, if at all. We recognize the challenge of shifting from cell phones and email to written letters, and we know how important it is for children to feel connected to home. But we also know that one of the keys to a successful camp experience is learning to face and solve problems without direct parent involvement, by talking with a counselor, section head, director, or friends. However, we shall permit campers to make and receive calls upon request. Permission to make a call must first be obtained from the Director.

In the case of homesickness we believe it is better at the outset to communicate with a child by letter. The sound of a parent's voice can unravel our efforts to help a youngster cope with homesick feelings. To help in the adjustment phase, **we ask that there be no phone calls to campers during the first two weeks of camp.** We suggest that anxious parents first telephone the Director to see how things are going before talking with your child. We do not provide email communication for campers. You are always welcome to phone or email the directors.

We assure you that, in addition to our safety preparations for any eventuality, we have updated our response plan to handle events that could happen outside the camp community. Please know that communication with our parents is an integral part of this plan.

CAMP MAIL ADDRESS

Please address your child's mail as follows:

(Camper's full name)
Camp Lincoln
 395 Frontage Road
 Keeseville, NY 12944

or

(Camper's full name)
Camp Whippoorwill
 517 Frontage Road
 Keeseville, NY 12944

CAMP TELEPHONE NUMBERS AND TIMES TO CALL

To reach campers, please call only during the following hours, **except** on Wednesday evening, Saturday evening, and Sunday breakfast (both camps), when we usually have cookouts or picnics and are not near the phone:

Whippoorwill Lodge (8:00 AM, 1:00 PM, 6:30 PM) **518 834-4621**

Lincoln Lodge (8:00 AM, 1:00 PM, 6:30 PM) **518 834-7916**

To reach our central office DURING THE DAY: **518-834-5152**

Whippoorwill Director (Kate Green) **518 834-5152**

Lincoln Director (Doug Furman) **518 834-5151**

Whippoorwill Nurse **518 834-9325**

Lincoln Nurse **518 834-7125**

Doug: doug@northcountrycamps.com
Nancy: nancy@northcountrycamps.com

VISITING THE NORTH COUNTRY CAMPS

Visiting day this summer will be Saturday, August 3. Camp will be open to visitors starting at 9:30 a.m. You may observe your child in the morning activities, take him or her out of camp for lunch, be back no later than 6:00 p.m., and then join us for a picnic supper followed by some singing. The day will end at 8:15 p.m.

Those who prefer to visit on a different date may do so, but we won't be able to offer a meal at camp. Please remember that you are limited to a single visit. Children may leave camp only with their own families, unless written permission to do otherwise has been received by the Director. Oldtimers should be reminded that a visit is neither expected nor necessary unless you and your child feel strongly about it.

For those who may wish to make reservations in advance, here are a few suggestions of places to stay nearby. There are numerous other motels, inns and B&Bs in the Lake Placid area, and near Plattsburgh at Northway Exit 37, including a Comfort Inn, Holiday Inn, Day's Inn, and Econo Lodge. To determine the quality and cost of accommodations it would be best to check with a travel organization. We prefer not to make specific recommendations.

There are Bed and Breakfast establishments in the area that can be discovered by consulting a bed and breakfast guide for northern New York State. You can also check the website: www.adirondackinns.com

In *Essex*, fifteen miles south of camp on Route 22 next to Lake Champlain is The Essex Inn, serving gourmet meals (518-963-4400) - www.essexinnessex.com

In *Westport*, about twenty miles south of camp on Route 22, are several bed & breakfast homes and inns, including:

The Inn in Westport (518-335-1966) – www.innwestport.com
All Tucked Inn (518-962-4400) – www.alltuckedinn.com
The Westport Hotel (518-962-4501) - www.thewestporthotel.com

In *Keene Valley*, about thirty miles from camp on Route 73, are:

The Keene Valley Lodge (518-576-2003) – www.keenevalleylodge.com
The Trail's End Inn (518-576-9860) – www.trailsendinn.com

For those interested in camping, there are public and private campgrounds in the area, including Ausable Point and beach on Lake Champlain (518-561-7080), Willsboro Bay Marina, where there is a restaurant and boats can be rented (518-963-7276).

DIRECTIONS TO CAMP:

By car the most direct route to camp from the south is the New York State Thruway (Interstate 87) to Exit 24 at Albany, then continue north on the Adirondack Northway (continuation of Route 87) to Exit 33, at the intersection of Routes 9 and 22. From Exit 33, cross over the Northway on the overpass, turn right and continue driving north on Frontage Road for about a mile. The entrances to the camps are on the west side of this road. You can also reach Frontage Road from Route 9 by using the underpass at the North Country Camps sign, three miles south of Keeseville.

CLOTHING AND EQUIPMENT

The suggested equipment list can be found online.

Your child will receive a T-shirt, which is included in the store account fee. These will be fitted, marked with the camper's name, and delivered at camp.

Additional shirts or hats may be ordered via our online store, which is on our website. Please see equipment list for information on other clothing and equipment.

An important reminder about footwear: To discourage blisters, new shoes should be thoroughly broken in before camp.

Please limit the items brought to camp to those on our suggested equipment list. There is no need for lots of extras, and storage space in cabins is limited.

FLASHLIGHTS

Junior and Senior cabins at both camps do not have electricity. It is essential that **every** camper have a flashlight in working order, as well as a supply of extra batteries. Headlamps are useful for around camp and on trips.

SAFETY DEVICES

We require and provide Coast Guard approved personal flotation devices (life vests) for all who use rowboats, canoes, kayaks, sailboards, and sailboats. We also require and provide protective helmets for horseback riding, bicycling, and the ropes course. Any camper who wishes to bring along his or her own personal life vest or protective helmet(s) is welcome to do so. Please be sure that such items conform to the highest standards of safety, and bear the camper's name. Horseback riders must wear shoes or boots with heels. We can provide riding boots with heels for those who need them.

CAMPING EQUIPMENT SUGGESTIONS

The following suggestions, offered by our experienced trip leaders, may prove helpful if you plan to buy some items of camping equipment. **Please remember to put your child's name on everything brought to camp.**

Sleeping Bag - Although important, the sleeping bag need not be expensive. A good sleeping bag for summer use is light in weight, small in volume when packed, and provides warmth enough for the average sleeper down to about 40 degrees. A down-filled bag is neither necessary nor desirable for camp. Polyester-filled (known as Polarguard, Qualofill, Primaloft, or Holofill) bags have the advantage of being usable even when wet. Mummy-shaped bags are lighter, more compact, and warmer than rectangular bags. *A proper sized stuff bag is essential.*

Foam Pad (optional) – For older campers, a foam sleeping pad is useful both for comfort and for insulation from the ground. Inflatable sleeping pads are preferred by some, but do cost more. Closed cell foam pads can be purchased from most camping supply stores, or to save money, visit an Army-Navy store and buy a military sleeping pad, which weigh next to nothing, work well, and usually cost under ten dollars.

Day Pack - A piece of equipment likely to be useful for all campers is the day pack. Such packs are small and designed to carry one's jacket or sweater, poncho or raincoat, water bottle, lunch, and a limited number of other small items.

Frame Pack. Camp will supply frame packs for trips. The purchase of a frame pack or internal frame pack is *not* recommended for beginning or younger campers. We will be happy to make recommendations to those whose interest in backpacking warrants such a purchase.

Water Bottles - In the purchase of a water bottle, high quality can be obtained at low cost. Be certain it has a tight-fitting cap so it won't leak. We recommend that hikers carry **two 1 quart or 1 liter** bottles. Because we need to sanitize these items, bottles are better than hydration systems (Camelbacks). Many hikers simply use a thoroughly rinsed one or two-quart plastic juice bottle (we are pleased to see them recycled for use, and have a supply at camp for camper use). If purchasing stainless steel water bottles, make sure they hold at least 1 quart or 1 liter of water.

Poncho – Ponchos are used both as ground cloths under sleeping bags and as rainwear. Good quality is desirable. The best buy is a lightweight *coated nylon* poncho. **Vinyl or plastic ponchos tear easily and should be avoided.**

Raincoat - The best raincoat is one that will fit in a day pack, has a hood, and is long enough to cover the hips.

Socks - While many of us at camp still prefer to wear wool socks when hiking, the new combination socks, which contain wool and synthetic fibers, are also recommended. Cotton socks are not recommended for hiking trips. Wool socks will be more comfortable for hiking and have the advantage of keeping you warm, even when wet. We recommend that everyone come to camp with *at least* one pair of wool hiking socks. Many people like those made by Darn Tough and Smartwool. *Note* *If you buy socks in light colors, it's easier to write names on them!*

Footwear - We recommend that you buy **high-top** (above the ankle bone), lightweight hiking boots. These boots are made with a combination of leather and nylon, have a rugged lug rubber sole, and are specifically designed for hiking. **Any new shoes should be well broken in before coming to camp, to avoid blisters.** When buying boots, be sure to fit them with two pairs of socks, the outer pair being heavy wool or wool/synthetic combination socks. Also, check the fit to be sure that your camper's ankles receive adequate support.

Teva-type or Crocs sport sandals can be used for both swim/shower footwear and for boating and trips. **Make sure they have a heel strap and will not come off in the water.**

Wool or fleece sweater - Unlike cotton, wool or fleece will keep you warm even when wet, an important feature when hiking or canoeing in the rain. *A wool or fleece sweater is **required** for camping trips.* It will be easier to put on and take off if it has a zipper.

Wicking t-shirt - In cold weather, a non-cotton (some type of polyester) shirt is the ideal first layering piece. By moving sweat away from your skin, it helps prevent chills that you would get if your skin remained wet in the cold air. In warm weather, this shirt moves sweat away so the air dries it quickly. A wicking shirt is particularly important for older campers interested in extended hiking trips.

Long pants - At least one pair of long pants should contain at least 65% polyester. Such material dries faster than cotton, denim or corduroy.

Wool or fleece hat - Though most of our weather during the summer is warm and wonderful, we do wake up to some chilly mornings both in camp and out on trips. A wool or fleece hat (a ski hat) is important to helping campers be warm and comfortable.

There are many suppliers of good camping equipment. Two suppliers: Campmor - found on-line at www.campmor.com and Recreational Equipment, Inc. at www.rei.com carry the items listed above at reasonable prices. The best stores are those whose salespeople know and understand the needs of the hiker and camper. Sierra Trading Post, at www.sierratradingpost.com may be worth checking for their selection of good camping equipment at discounted prices.

NEW YORK STATE PUBLIC HEALTH LAW

New York State Public Health Law requires that children's camps notify camp families of the following information:

1. Our camps are required to be licensed by the New York State Department of Health.
2. To be licensed we must comply with detailed standards of health, safety, and sanitation. Health Department personnel inspect our camps each summer.
3. Reports of these inspections are filed at the following address, to which inquiries may be made:

New York State Department of Health, District Office
11-15 St. Bernard St.
Saranac Lake, NY 12983

Phone: 518 891-1800
